

# Event Questionnaire / Questionary for the European Championship 2005 held at Debrecen, Hungary.

by Gerald Stürzlinger  
June 27th, 2005

A debriefing meeting for involved people was scheduled towards the end of the Europeans 2005. Competitors were also kindly asked to fill out this questionnaire. The event debriefing and this questionnaire serve the purpose of improving future events by evaluating your answers, response and comments. Your input can make the difference to make your participation in upcoming years more pleasant! The Questionary Sheets were mainly collected at the Logger-return-desk, with the help of Sue Tatford - Thanks. Gerald Stürzlinger, representing the CSC at the event collected some and made this compilation. The Competitors Subcommittee will publish the results of the debriefing and questionnaire on the CSC website (<http://home.t-online.de/home/ciacc>).

Some questions request a rating in percent (%), where 0% means very bad, not satisfied, not happy; rating 50% means medium, average, improvable; and a rating of 100% means excellent, perfect, or just yes, positive confirmation.

in total 47 Feedback Opinion Sheets received, out of 81 participating pilots.  
NB: very few officials also used the feedback opportunity (3-4)

= 56,0%  
participation

## Organisational part of the European Championship 2005.

Rating:

1.	Are you satisfied with the communication process (entry forms, information, web-site, etc.) before the Event?	69,4%
2.	Once in Debrecen, are you satisfied with the reception (room assignment, welcome desk, etc) of the Event organisers?	65,5%
3.	Are you satisfied with the handling of your individual wishes (rental car reservations, balloon renting, helium supply, etc)?	79,4%
4.	Are you satisfied with the competition headquarters facilities?	93,0%
5.	Are you satisfied with the refuelling facilities?	69,1%
6.	Was the communication process during the event (timings for "social" events, further schedule) sufficient?	61,5%

## Competition Part of the Europeans 2005:

Rating:

1.	Are you generally satisfied with the competition pleasure of this Event?	68,8%
2.	Are you satisfied with the Task-setting?	66,1%
3.	Are you satisfied with the competition area in general?	73,3%
4.	Are you satisfied with the competition map (accuracy, features)?	90,1%
5.	How did you like the preparation / display of the Weather ?	74,9%
6.	Are you satisfied with the response time, result publication speed?	94,9%

## Tasks & Scoring with GPS Loggers at the Europeans 2005:

	YES	YES-%	NO	NO-%	Yes/No
1. In General: do you prefer competition with Loggers or Observers?	27	57%	14	30%	3
2. Do you think results are more objective with Loggers then with Observers ?	29	62%	13	28%	2
Some of the standard Tasks are not feasible / manageable with Loggers.					
Do you think the loss of old tasks is compensated by the new tasks that are now possible with the Logger scoring? (In slightly other words: is there enough task variety with the Logger scoring)					
3.	20	43%	21	45%	0
4. Are you satisfied with the 3-dimensional scoring?	24	51%	20	43%	0
5. Does flying with Loggers make ballooning competition safer?	8	17%	30	64%	3
Do you think the shortcomings of the Logger System today can be overcome by changes in rules or equipment in the future?					
6.	34	72%	5	11%	1
